Steel Blue	Royal Navy	Captains Navy	Cadet Grey	Zinc	Black

Outdura® is 100 percent woven acrylic, Outdura dries fast, cleans easily and offers unprecedented protection from the sun. The fabric's UV Protection Factor (UPF) is 50+, which is as high as the rating goes and more than three times as high as the minimum recommended by cancer groups.

Furniture-weight Outdura carries a five-year limited manufacturer's warranty.

Shuford Mills warrants its 8-ounce Outdura fabric for three years from the date of the original purchase and warrants its 9.25-ounce Outdura for six years from date of original purchase. The Outdura warranty covers the fabric becoming unserviceable as a result of loss of color or strength from normal exposure conditions, including sunlight, mildew, rot and atmospheric chemicals, if the fabric has been properly installed, used and maintained. The warranty does not cover labor and installation supplied by the dealer. The warranty also does not apply against deterioration of any kind due to abusive use, accidental burns, negligence, vandalism, perforations, or acts of God.

Special yarn made from solution-dyed acrylic in which the pigment is added while the fiber still is in solution. With this method, the color permeates the fiber so it can't rub off or wash away. Stabilizers are also added in the same way to minimize the effects of the sun, to help the fabric maintain strength over time, and to inhibit rot.

Don't all solution-dyed fabrics do what Outdura® does?

Absolutely not, so make sure you purchase 100 percent solution-dyed Outdura® acrylic fabrics. There are other fabrics on the market today that are made from synthetic, solution-dyed fibers that have different names and make similar claims. If they are not solution-dyed acrylic, they will not perform, last or retain color as well as a solution-dyed acrylic. Quality manufacturers and retailers of outdoor furniture and marine products know the difference.
